

Business Success

We succeed when you succeed.

Our business philosophy is to do whatever it takes to support our clients in the growth of their organization. Results from the proper implementation of technology in your company can be dramatic and we find that process exhilarating. We make managing your technology **OUR** business and let you run your business.

InSwift Now Offers

REMOTE SUPPORT

Easy. Instant. Reliable. Computer Support.

InSwift is proud to announce our new **Remote Support*** system. This easy to use service allows anyone with a Windows PC and an internet connection to connect with an InSwift technician and screen share for personal, one-on-one technical support. Why wait 2 or 3 days for an on-site visit when you can get the help you need **INSTANTLY**?

Other uses for **Remote Support**:

- **Optimization:** Computer slow? Let us connect and diagnose your problems and help speed it up!
- **Training:** Ask questions and get help with your common software applications.
- **Software Installation:** Let us install your software properly the first time.
- **Windows Configuration:** We can help you get the most out of your computer operating system.

\$79 first hour or incident
\$49 each additional hour

For Remote Support Call:
1-866-4INSWIFT
Or Visit:
